

HUEY AND ANGELINA WILSON FOUNDATION
SUGGESTIONS FOR COMPLETING THE ONLINE APPLICATION

It is strongly recommended that you read the Grant Guidelines and type your grant request in a text document such as Microsoft Word per the directions in the Grant Guidelines. All information within the application must be in text format without tables or bulleting. Tables should be included as a separate attachment titled the same as the way it is referenced within the application. Once completed, cut and paste your responses to the application in the appropriate response field. Please use a 12 pt. font and allow for 1” margins.

Tables and Attachments should be clearly titled with the name of the organization and the title of the attachment. To include in the application, scroll to choose the title of the attachment, and then attach your file by browsing, then attach the appropriate file. This must be done for each attachment separately.

Please do not retype the questions as this will waste your available response space.

Spell check your application before submitting.

Press “Review My Application” before submitting, to ensure all fields are completed appropriately.
