

Empower Letter of Intent

The Empower pillar has a two-step application process, with the first step requiring prospective program partners to submit a letter of intent (LOI) via our online grant portal to provide the Foundation with a short summary of their request. This allows the Foundation to be considerate of prospective partners' time and resources and determine if the project is a good fit before the organization is invited to complete a full grant application. Before submitting an LOI, please review the Empower Grant Guidelines found on our website.

Please note: Huey and Angelina Wilson Foundation will only accept LOI submissions online. This document is made for reference ONLY. Do not submit this document. Any mailed/emailed LOI submissions will not be considered for funding.
